DREW THOUSANDSWISCONSIN'S METROPOLIS IN
GALA ATTIRE.

Governors of Five State Present in Honor of the Fiftieth Year as a Municipality—Twenty Thousand Men in the Parade.—The Exercises at the Academy of Music.

Milwaukee, Wis., Oct. 17.—Milwaukee presented a fascinating aspect yesterday to the thousands of strangers who participated with the citizens in celebrating the cream city's semi-centennial anniversary. The first day of the celebration was an unqualified success, for everybody who could get outdoors participated in it. The early morning hours were devoted to the reception of guests who poured into the city on every train that arrived. Governor John P. Altgeld of Illinois, Governor Upham of Wisconsin, Governor Rich of Michigan, Governor Clough of

GOVERNOR UPHAM.

Minnesota, and Governor Jackson of Iowa, formed a distinguished group. The parade was formed on National avenue shortly after 10 o'clock. It took the procession a long time to pass the reviewing stand. Not that it moved slowly or was retarded, but because it was an enormous affair and 20,000 persons were participating in it. The Academy of Music began to fill up long before 3 o'clock, the hour set for the opening of the exercises. There was considerable delay in the arrival of the speakers, and it was nearly 4 o'clock before John C. Spencer, chairman of the committee on speakers, introduced Mayor Koch. Before the speaking began the governors took seats upon the stage. Mayor Koch delivered the address of welcome. Governor Altgeld followed and when his name fell from the lips of Chairman Spencer the auditorium rang with cheers and applause, renewed again and again. Gen. F. C. Winkler, the orator of the day, was then introduced. His speech was a history of Milwaukee. Governor Jackson of Iowa, who followed, complimented the city upon the handsome showing it had made. Governor Rich of Michigan was the next speaker, and he made a brief but felicitous address. Governor Clough made the closing speech. He said, as an old resident of Wisconsin, he was ashamed to say this was the first time he had ever visited Milwaukee. He had never known there was so much good cheer in Milwaukee. He intended to repeat his visits and come often. The audience sang "America" and the exercises were at an end.

IOWA BANK CLOSED.

Speculation on Chicago Board of Trade Said to Be the Cause.

Sigourney, Iowa, Oct. 17.—There is great excitement over the bank failure at Richland, this county. A. C. Charleton and Allen Stoker have conducted a private banking business at that place for years. Last Thursday Charleton departed, leaving a note in which he told his partner that he had gone for more money, and asking Stoker to run the bank until his (Charleton's) return. The note was locked at the time and is still locked, as Mr. Stoker does not know the combination. Saturday Stoker announced that he believed his partner had left for parts unknown.

Monday various creditors became anxious and attachments aggregating \$40,000 were secured for real estate formerly owned by Stoker, but which was deeded to his son on September 5. It is hoped to have the deeds set aside on the ground of fraud. There are 320 acres of land worth 50 an acre.

The deposits are estimated to amount to between \$50,000 and \$60,000. The firm always paid 8 per cent interest on deposits and hence attracted a large custom. Charleton, it is said, has been dealing on the Chicago Board of Trade, and it is thought here lost heavily. The county has \$2,000 on deposit in the bank, but it is secured.

Fort Wayne's Celebration.

Fort Wayne, Ind., Oct. 17.—This city was again filled with strangers yesterday to attend the centennial celebration. The old settlers' meeting in the morning was very largely attended. Addresses were delivered by Judge John Morris of this city and Rev. S. A. Northrup of Cincinnati. In the afternoon the old settlers held a camp fire at Princess rink, the principal address being delivered by Isaac Jenkinson of Richmond.

Talk of the Negro.

Columbia, S. C., Oct. 17.—The South Carolina constitutional convention re-assembled yesterday.

MARRIAGE AND DIVORCE.

Rigid Rules Adopted by the Episcopal Convention.

Minneapolis, Oct. 17.—In the Episcopal house of bishops yesterday the revision commission reported finally with canon thirty-five on marriage and divorce. The canon as reported forbids any minister to solemnize the marriage of any person who has been divorced unless that person was the innocent party in a divorce granted by the court for adultery. If any minister knows or believes that anyone has married otherwise than allowed by the discipline of the church, he may not administer baptism or communion to that person unless death be imminent and the person be penitent, without the consent of the bishop.

Among the reports presented at the opening session of the House of Deputies, was one from the committee on nominations, naming as trustees of the General Theological Seminary all the old board, and proposing Henry Butt as the successor of Rev. Dr. Hall, deceased. Majority and minority reports on the proposition of the bishops to change the title page of the Book of Common Prayer precipitated a warm discussion. The bishops desired to insert the words "according to the American use," rather than insert the whole name of the church. This was interpreted by some as a move toward changing the name of the church. It was also argued that the revision of the prayer book had been completed in 1892, and dropped, and that it would be unwise to take it up again now. The deputies refused to concur in the revision.

The House of Bishops appointed a commission to prepare a version of the prayer book in German. The committee to confer with the English Church as to a board of reference on foreign missions of the Anglican communion, appointed in 1880, reported that the object for which it had been appointed had been accomplished, and it was discharged.

Rev. Dr. F. W. Taylor of Springfield, Ill., described the attempt to erect a province of Illinois without the sanction of the convention, and showed how it was handicapped by lack of authority.

SHORTAGE IS \$50,000.

This Amount Stolen by the Cashier of the Fort Scott (Kan.) Bank.

Fort Scott, Kan., Oct. 17.—After a long conference with J. R. Colean, the defaulting cashier of the State Bank of this city, Vice President J. J. Stewart made the startling announcement yesterday that the amount of his default would probably exceed \$50,000, two-thirds of the amount of paid-up stock in the bank. Colean insists that he lost all the money in speculation, dealing largely through Gaylord & Blessing of St. Louis, and that he is now penniless. Vice President Stewart is mystified at the unexpected proportions of the theft. He was constantly in the bank and believed such a steal to be impossible without his having learned of it. He says it will wipe out all of the capital stock and probably necessitate assessment against the stockholders. Mr. Colean is still in bed at his home, but will be arrested by the bank officers as soon as his condition improves. His wife is endeavoring to raise \$20,000 on his life insurance, and will refund that amount to the bank if possible.

Social Purity Congress.

Baltimore, Md., Oct. 17.—A large number of papers were read and addresses made at yesterday's session of the Social Purity Congress. Resolutions were adopted declaring State or municipal regulations of prostitution is morally wrong; that the State should punish by imprisonment rather than by fining keepers of houses of prostitution; asking that "facilities be provided for treatment of venereal diseases, and that homes should be everywhere established for the reclamation and rehabilitation of erring girls." The congress then adjourned sine die.

Corea's Queen Was Murdered.

Yokohama, Oct. 17.—A dispatch received here from Seoul says that the body of the murdered queen of Corea has been found. The crown prince, who was with the queen when she was murdered, has secretly sent from the palace a description of the assassins, by which they are identified as Japanese. The plot originated with disgraced Japanese soshi and corrupted the Japanese troops. Proofs are said to exist connecting the Japanese minister with the plot.

Money for New Army Posts.

Washington, Oct. 17.—The annual report of the quartermaster general of the army shows that during the year the army was liberally and promptly supplied with all necessary articles of clothing and equipment of satisfactory quality. The principal allotments for the construction of new buildings at posts were as follows: Fort Crook, Neb., \$70,058; Presidio, San Francisco, \$34,941; Fort Myers, Va., \$45,600; Little Rock, Ark., \$116,600; Jefferson barracks, Mo., \$14,820; Fort Sheridan, Ill., \$11,769.

IS VAN BOETTICHER
OUT OF THE CABINETSUCH IS THE RUMOR CURRENT
IN BERLIN.

The Report Has not Been Confirmed—Active Volcano Supposed to be Doing Business south of Port Townsend—An Uprising in Turkey—Foreign News.

Berlin, October 17.—An unconfirmed report that Von Boetticher, the imperial minister of the interior, has resigned is in circulation here today.

Port Townsend, Oct. 17.—An active volcano is supposed to be in a state of eruption in the mountains south of this city.

London, Oct. 17.—The Constantinople correspondent of the Times, in a dispatch to that paper, dwells upon the vague rumors current there and upon the feeling of unrest manifesting itself by a decline upon the bourse, by long faces in the Bazaar, and by mysterious whisperings of massacres in the provinces which are wholly unsubstantiated. The Times correspondent believes the whole trouble is that the recent disturbances have accentuated the Mohammedan discontent with the oppressive palace government. Mohammedans declare that a storm is brewing which will sweep away the whole dynasty and liberate Islam from the thrall of the hated Hamidian system, which cramps its energies and paralyzes all its forces. The activity at the Dardanelles continues, and 10,000 additional men are under orders to join the garrison. New batteries are building at Dardanos, Namazie, and Madjidien, armed with heavy guns. All the flannel in town has been bought up for cartridge making, and all the whitesmiths are busy making lanterns and canteens. Many Mohammedans have been arrested in different parts of Stamboul for using seditious language.

TROOPS WITHDRAWN.

Japan Submits to the Demands of Russia, France, and Germany.

San Francisco, Cal., Oct. 17.—Advices by mail from Tokio, Japan, dated September 27, state that Japan has been forced to comply with Russia's demand for the speedy withdrawal of Japanese troops from Liao Tung. France and Germany joined in the demand, and the Japanese government is in no position to defy the three European powers. The announcement of Russia's purpose took Japan by surprise. The proceeding has caused renewed bitterness in Japan against Europeans. The Japanese also charge their own ministry with conniving at the nation's dishonor.

Great Britain Has Not Answered.

London, Oct. 17.—United States Ambassador Bayard presented a long note to the Marquis of Salisbury on the Venezuelan question some weeks ago, stating at length the views of the United States government, and the rules and policy by which they guided such questions arising between a European government and an American republic. Up to the present no reply has been given.

Brazil Recognizes Cubans.

Buenos Ayres, Oct. 17.—It is reported here that Brazil has recognized the Cuban insurgents as belligerents.

THE LIQUOR TRAFFIC.

Illinois Presbyterians Have a Warm Debate on the Subject.

Peoria, Ill., Oct. 17.—The Presbyterian Synod of Illinois had a lively session yesterday. The synod has gone on record as unwilling to control or affect in any way the vote of its members, especially as regards the liquor question. After much discussion of the subject, Rev. Mr. Holloway, of Rock River, said the Presbyterian Church should take its place in opposition to the liquor traffic. A heated discussion ensued, and finally Rev. Mr. Ross, of the Schuyler presbytery, came up with this resolution, which was adopted, but which the strong temperance advocates in the synod think is a backward step: "Resolved, That in the judgment of the synod all Christian citizens ought to use their influence and franchise in such a way to speedily overcome the licensed liquor traffic."

The report of Dr. W. S. Marquis, of the committee on foreign missions, shows \$51,674 contributed during the year. The churches gave \$19,000, the women's societies \$28,000, the Sunday schools \$1,500, and the Christian Endeavor societies \$2,000. This is a falling off from last year, the heaviest in the decade. The evening session of the synod was devoted to a conference on local church work, with special reference to men's leagues. Rev. John C. Hill presided. Addresses on the subjects connected with this work were delivered. The thirteenth annual meeting of the Women's Synodical Home Missionary Society was also held yesterday. The following officers were elected: President, Mrs. C. W. Robinson, Bloomington; vice presidents, Mrs. Thomas Galt of Aurora, J. Ross Mills of Rock Island, H. R. Taylor of Springfield, J. A. Yale of Chicago, Charles A. Wilson of Hyde Park, and D. N. Bash of Peoria; recording secretary, Mrs. G. A. Little, Mount Sterling, corresponding secretary and treasurer contingent fund, Mrs. Margaret C. Monroe, Chicago; secretary for Freedmen's Society, Miss Mary E. Holmes, Rockford.

FIGHT TO COME OFF
AT HOT SPRINGSGOVERNOR CLARKE HAS
BACKED DOWN COMPLETELY.

Leaves the Whole thing in the Hands of the Local Authorities and says He Thinks They will Prevent the Mill. "Glove Contests" are Legal.

Hot Springs, Ark., Oct. 17.—The prospects for the fight look better this morning as the governor has left the case in the hands of the local authorities. Governor Clarke arrived yesterday and held a long conference with the citizens' committee. The conference was held behind closed doors—that is, no one except the citizens' committee, the governor and Gen. Taylor, commander of the state troops, was admitted. The result of the conference was very satisfactory to the citizens' committee, who are working to bring off the fight or glove contest. The governor recedes from the stand he took to the extent that he says there will be no militia interference, but that he will leave the whole matter in the hands of the local authorities, believing that they will enforce the law. This is all that could be asked of the governor, for the local authorities have said that they would enforce the law. But the fact is, there is no law in the state prohibiting "glove contests," hence there will be no interference on the part of the local authorities unless some law is violated.

MEET IN COLLISION.

Fatal Accident on the Pennsylvania Road Near Altoona.

Altoona, Pa., Oct. 17.—Two men were killed, one fatally and several slightly injured in a wreck on the Martinsburg branch of the Pennsylvania Railroad yesterday. The dead are:

W. F. GOOD, of Henrietta, fireman of the Martinsburg train; killed instantly. J. Q. WOODRING, of Tyrone, brakeman of water train; both legs cut off and head crushed.

The injured:

David Arthur, of Altoona, engineer of the Martinsburg train, badly scalded and injured internally; cannot recover. Henry Blackburn, engineer of the water train, seriously but not fatally hurt.

William Jones, of Burket Station, a passenger, thrown through a door and painfully injured.

Ben Weyandt, of Roaring Springs, passenger, badly cut about arms.

Conductor Davis, of the passenger train, escaped with slight injuries.

A number of others were more or less cut by flying glass. A water train, consisting of several tank-cars, were just pulling from a siding to the main track when the Martinsburg passenger train came around the curve at full speed. The collision completely demolished both locomotives and smashed several of the tank-cars. The passenger-cars kept the track. The accident was due to a confusion of orders.

CONDEMNED BY THE POPE.

Congress of Religion Does Not Meet with His Approval.

Philadelphia, Pa., Oct. 17.—Pope Leo has written an important letter to the Catholic hierarchy of America, condemning the assemblage of congresses of religion. The letter has been delivered to Archbishop Ryan of this city, and to all other archbishops. It was the main subject considered at the recent assembling of archbishops at Washington, but the efforts at secrecy were successful in keeping the latter from publicity. What steps the archbishops took cannot be learned, but with the views of the pope thus clearly expressed the American church will doubtless anathematize congresses of religion in the same way that an interdiction was placed on Catholic participation in the Knights of Pythias, Odd Fellows and other secret societies.

Against Union Pacific Receivers.

Washington, Oct. 17.—Argument in a case of more than ordinary interest commenced in the United States court of appeals yesterday. The action is one which was brought by the Farmers' Loan and Trust company of New York against the receivers of the Union Pacific railway system. Ex-Senator J. N. Dolph and Joseph Simon of Portland, Ore., appeared for the Farmers' Loan and Trust company and the American Loan and Trust company, which later corporation is also a party to the case, and Senator J. M. Thurston of Nebraska and Zera Snow of Portland, Ore., will represent the Union Pacific railway.

Gathering Ought to Be in Missouri.

Kansas City, Mo., Oct. 17.—The conference of the members of the populist state central committee and editors of the state have adopted a rousing resolution expressing a preference for Kansas City as the place for the next national convention of that party. In case it was not to be held in this city they preferred St. Louis and they were strong in their belief that the gathering ought to be held in the state.

WON'T ABOLISH THE LORDS

Rush Lyceum Decided That The Peers Should Be Given a Show.

The Rush Lyceum held its first regular session last evening. The debate was on the subject "Resolved That the English House of Lords Should be Abolished." The affirmative was ably upheld by Messrs. Knoff, Golling and Norcross, while the negative was represented by Messrs. Palmer, Johnson and Baker. After an interesting discussion during which many good points were presented by both sides, the judges, Miss Holt, Miss Holmes and Mr. Scott, gave the decision to the negative. The program closed with a "Sketch of the English Political System," by William Denniston and an essay on "The Home Rule Movement," by Edward Kay. The next meeting is Columbus night, being the anniversary of the founding of the League. The subject for debate will be "Resolved That Livingston Was a Greater Explorer Than Columbus."

Only male members of the church, at least thirty years of age, and who have been faithful members of the Evangelical Association not less than seven consecutive years, shall be elected delegates. Each annual conference or district shall provide for the expenses of its delegates. The report on temperance approves the aggressive attitude of the W. C. T. SMALL CROWD SAW THE CHUMS

Play is a Success as a Comedy But a Failure Musically

A small audience saw Miller & Grady's company in "The Jolly Old Chums" at the Myers Grand last evening. The performance had plenty of "horse play" in it, as well as considerable music of a varying degree of excellence. Thomas J. Grady, Budd Ross and Carrie Lamont are the best comedians in the cast, but F. C. Scott is the only one who ought to be allowed to sing. The play ranked with other farces, however, and pleased the audience which is all that ought to be expected of a performance of that nature.

GROUNDLESS CHARGES ARE MADE

No Truth in the Attack on County Asylum Managers

The published charges concerning the death of W. E. Dillon in which it was alleged that he died alone, etc., and that no attempt was made to find his relatives, proves to be untrue and do a great injustice to Superintendent Peter Aller, and Dr. J. F. Pember, the county physician, two men too well known to county people to require any defense. Superintendent Aller has made the following statement in justice to all concerned:

"Wentworth E. Dillon came to the County Alms House, Thursday, Oct. 10 at 4 o'clock p. m. with a commitment paper from Superintendent S. B. Kenyon in his pocket. Friday he was at the asylum several times and was hanging up corn in the basement of the Alms House in the afternoon. He ate a very hearty supper and played cards and was singing all the evening, and went to bed in a room where there were nine other

men. The night watchman passed by the door of the room in which he slept as often as once in every hour and a half. During the night he was heard making some unusual noise—gasping for breath. Mr. Dunn says: "Several in the room gathered about his bed. 'He is dying,' said one of them." Mrs. Hughes, the matron, was summoned. When she arrived he was dead.

Early Saturday morning I went to Janesville and notified Mr. Kenyon of Mr. Dillon's decease. In reply to inquiries Mr. Kenyon stated that he knew of no relatives except a brother who was not in a condition to do anything for him; that he would have to be buried by the county. He further stated that not ten minutes after I left him he saw a reporter for The Gazette who said he would publish a notice of Mr. Dillon's death. Mr. Kenyon says: "I asked Wentworth where he came to my office to be committed to the Alms House if he knew where his brother was? He replied, 'no I have not seen him for two months.' After leaving Mr. Kenyon's office I returned to the asylum and made preparations for the interment of the deceased. The remains were in the Alms House for want of a morgue and were already emitting offensive odors, deeming it necessary to dispose of them. Accordingly they were buried in the county cemetery Sunday, October 13th at 10 o'clock a. m. PETER ALLER, Supt.

NEWS AS A STOCK IN TRADE.

Newspapers Jealously Guard Their Reputations for Accuracy as so much Capital.

Unthinking people sometimes complain that newspapers are "not accurate and reliable" in giving news. If the public could only realize how much nearer accurate and reliable is the news as published than the conflicting reports that come to the editorial rooms to be sifted, tested and toned down by reporters and editors, they would give the paper more credit than they do.

The Burlington Hawkeye suggests that it must be within the experience of every intelligent reader that verbal rumors which they had heard were materially changed and reduced in their import when presented in the next issue of the paper.

A railroad accident is almost invariably magnified as the rumor passes from one person to another, but the discriminating newspaper will probe for the facts that is loth to give currency to exaggerated statements which it will be necessary to retract or modify next day.

News is the goods which the papers have on sale, and the quality of the goods has much to do with the popularity of the paper; consequently the successful newspaper is jealous of its reputation as a news vendor.

For a like reason the newspaper publishers know that the public do not fully appreciate the nature of the request sometimes preferred by individuals when they ask the editor to suppress an item of news. It is equivalent to saying to the merchant: "Please take that roll of cloth from your shelves and don't sell it."

Few merchants would be apt to comply with the strange request, but the obliging editor often does out of kindly considerations for the business or personal welfare of citizens. It is a good trait in human nature, but it costs money to remove goods from the shelves and destroy them—for that is what it amounts to in the department of newspaper merchandizing.

FEW RODE ON THE STREET CARS

If Last Night's Patronage is a Sample, Theatre Goers Have to Walk.

It has been a question with Supt. Proudfoot for some time past, whether or not it would pay to hold the street cars this winter for the benefit of the theatre going public, but if last night's patronage was an indication of what to come people will probably be compelled to walk home as the patronage would not pay the cost of coal not to speak of working the men an extra hour.

RIGHT HERE AMONG US

Two Startling Cures by Dr. Greene's Nervura.

This Time One of the Cures was in the Herald Office.

Both Struck Down by Terrible Nerve Disease.

Are Now Well, Strong and Vigorous Again.

By Using This Great Vigorator for Blood and Nerves.

Among these well-known residents of Syracuse, N. Y., who have received almost untold benefit from the use of Dr. Greene's Nervura blood and nerve remedy, can be counted Austin R. Whipple of No. 134 Linden Street, an operator of one of the type-setting machine in the Herald office. Mr. Whipple and Nervura are not new friends, for the gentleman can look back for some years since he first received relief from nervous prostration by its use after a strong recommendation from one of his friends who had been cured of long standing nervous prostration. Mr. Whipple's nervousness dated from the time that he met with loss of appetite and general debility from night work and taxation of his nervous system.

Mr. Whipple says that he began to receive noticeable benefit after he had taken two bottles of Dr. Greene's Nervura and a half dozen bottles proved so efficacious that he felt like a new man and was able to prosecute his duties even better than before he was overtaken with such agonizing nervous disorders. His recommendation for Dr. Greene's Nervura came from his heart and not from any selfish motive. He believes that Nervura taken as directed has been the means of saving the lives of many people who have taken it and received benefit almost from the first bottle taken.

"It gives me pleasure to recommend Dr. Greene's Nervura," said Mr. Whipple when asked for his opinion concerning it. "I can cheerfully advise my friends and all others who are suffering from nervousness, to try Dr. Greene's Nervura."

Mrs. Eleanor M. Sherwood, of No. 303 Shonnard street, Syracuse, a widow who has been almost a life-long resident of this city, has very much to be thankful for after taking Dr. Greene's Nervura blood and nerve remedy. Mrs. Sherwood after the death of several members of her family within the space of a few months, lost control of her nervous system and became almost helpless. In fact she experienced a severe shock of paralysis affecting her entire left side. It left her a cripple and it was with difficulty that she was able to get about the house.

At the solicitation of some of her friends she tried a half dozen bottles of Dr. Greene's Nervura and she says that the effect was wonderful. She began to improve after taking three bottles and in a short time was able to get about with more freedom and comfort than she had dreamed of after experiencing the shock of paralysis. The remedy not only gave her relief from the malady that she had privied her of all comfort, but her physical condition generally began to improve. Her blood which had been low and circulated sluggishly began to take on new vigor and she fairly began life over again, she says.

When seen at her home and asked what she thought of Dr. Greene's Nervura Mrs. Sherwood said that she believed that it had saved her life. "I believe that it is one of the greatest remedies for the blood and nervous disorders that will ever be known," she said. "There would be less call for physicians if the people would try the effects of a half dozen bottles. I believe that it is a great tonic and invigorator for the blood. To my mind nothing better can be taken when one feels the effects of a nervous strain or wants an invigorator at any time."

It is not a patent medicine but the prescription of the most successful living specialists in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th St., New York city. He has the largest practice in the world, and this great medical discovery is the result of his vast experience. The great reputation of Dr. Greene is a guarantee that his medicine will cure, and the fact that he can be consulted by any one, at any time, free of charge, personally or by letter, gives absolute assurance of the beneficial action of this wonderful medicine.

TELEPHONE TOLLS ARE CUT IN HALF

THE LONG DISTANCE TARIFF IS
MUCH REDUCED.

Rate For Connection with Beloit is but Fifteen cents, While You can Talk with Chicago for Sixty—Time Limit of Three Minutes, still in Force.

The Wisconsin Telephone company have cut the "toll rates" in two in the middle. So says Manager H. O. Willits, who is much elated over an order that has just been received from headquarters in reference to prices that will be charged for using the long distance line.

"I was much surprised remarked Mr. Willits, 'to find that the tariff is about one-half former charges. For instance to talk to Chicago for three minutes has always cost \$1.20. Now it is just one-half—sixty cents—but the time limit is the same. To Beloit the rate is 15 cents instead of twenty, while the smallest charge will be fifteen cents. Other charges will of course be regulated according to the distance, but all are much less than former charges. The line is in a perfect working order and at recent tests we could talk to Chicago in an entirely satisfactory manner."

WANT CADWALLADOR PARDONED.

Superior People Think the Banker Has Been Sufficiently Punished.

A dispatch from Superior says that a strong effort is being made to obtain a pardon for A. A. Cadwallader, the ex-president of the Superior National bank, who is serving a sentence for embezzlement of the bank's funds. Cadwallader was in jail here for a long time being a model prisoner and making many friends among the officials with whom he came in contact.

In the trial of his case the jury disagreed and Cadwallader, being without money, pleaded guilty, receiving the lightest sentence under the law. He will have served one year in November and his friends ask that executive clemency be extended on the anniversary of the event, the ground being that he has already been sufficiently punished for an error in judgment and embarrassment caused by too much real estate speculation. The application has been made to President Cleveland from whom the pardon will come if granted at all.

\$10,000 WORTH OF CLOTHING

Will Be Opened Saturday At The Annex.

Lowell, the hustler, has again donned his war paint. As his large advertisement says this evening, "A thirty days' sale of \$10,000 worth of clothing will commence at the Annex Saturday. The goods were bought direct from one of the best known factories in the country and includes the light grades of this year's make of men's and boys' suits, pants and overcoats. The sale must be quick the manufacturing concern needs money, therefore the 30-day limit prices on clothing will be just half the cost. This statement is bona fide. Lowell's reputation of the past as a manipulator of large sales verifies the say so. If you wear clothing, and you most certainly do, come to The Annex Saturday. Remember the goods are all new. No old shoddy goods in the lot. The sale takes place at The Annex where the 6,500 pairs of shoes are going. Lowell's Annex.

STARVING.

In the Midst of Plenty.

That's what people with poor digestion are doing every day. They have no appetite, or if they do have an appetite and eat what they require it does them no good because the stomach does not digest it and the fermenting mass of food becomes a source of disease, of headaches, sleeplessness, languor and the thousand and one symptoms resulting from disordered digestion. Stuart's Dyspepsia Tablets promptly relieve and cure all forms of indigestion. They have done it in thousands of cases and will do it in yours. The reason is simple. Because they digest the food whether the stomach works or not. That's the whole secret and the only secret about Stuart's Dyspepsia Tablets for we tell you plainly just what they contain because we believe that every man and woman ought to know what they are putting into their stomachs.

Stuart's Dyspepsia Tablets contain the freshest, purest pepsin, free from animal impurities, combined with bismuth and the most valuable vegetable essences and fruit salts, making it not only the surest cure for stomach troubles but a perfectly safe, reliable preparation. Sold everywhere by druggists at 50 cents per package or sent direct by mail by Stuart Co. Marshall, Mich.

The Present Generation.

Lives at telegraphic speed—eats too fast, retires too late, does not rise betimes, smokes and (alas that we should have to say it!) chews too much tobacco. The consequences are dyspepsia, a general absence of that robust and manly vigor which characterized our ancestors, and a manifest proneness to early decay. Regular hours, a due allowance of time for meals, the disuse of excessive smoking, and altogether of chewing tobacco, in connection with a course of Hostetter's Stomach Bitters, will in nine cases out of ten efface the consequences of the abuses of the laws of health indicated above. A want of stamina, dyspepsia, nervousness and biliousness are among these consequences, and they are bodily ills to the removal of which the Bitters is specially adapted. Nor is the Bitters less fitted to overcome and prevent fever and ague, kidney and bladder troubles and rheumatic ailments. It is also a fine appetizer and promoter of convalescence.

If his brain is heavy, and his blood sluggish, because of constipation, he will not succeed in doing anything very well. Constipation is the cause of nine-tenths of all sickness. Symptoms of it are: sallow complexion, listlessness, poor appetite, bad taste in the mouth, dizziness, biliousness, and lassitude. Constipation can be cured easily and certainly by the use of Dr. Pierce's Pleasant Pellets. They are not at all violent in their action, and yet they are more certain than many medicines which are so strong that they put the system all out of order. The great advantage of the "Pleasant Pellets" is that they cure permanently.

WOOL FOR FARMERS' EYES.

Those free trade documents Secretary Morton has been issuing under the title of "Agricultural Circulars" are very interesting.

The circulars are issued ostensibly for the information of the farmer concerning crop statistics for various years. In this case the purpose is obviously to mislead him in regard to tariff conditions under the McKinley tariff and that which has succeeded it.

To show the accuracy as well as the animus of this document, it is sufficient to quote the figures given concerning exports and imports under the McKinley tariff. He takes 1893 as a McKinley year, although as every one knows, it was a year when the whole national commerce was paralyzed by uncertainty as to the action of a democratic congress, and shows the exports to have been \$821,030,785, against imports amounting to \$360,400,992. But he ignores the figures for 1892, which are a fair test of the operation of the McKinley law, and which show the imports for that year to have been but \$327,403,462 against \$1,015,732,011 of exports—a balance in favor of the United States to the amount of \$188,329,549. There are several other omissions in the circular which the farmer will do well to inform himself about but the one quoted is sufficient to show the glaring inconsistency of the document.

ANTI-TOXINE TESTS

Janesville diphtheria cases must have been treated with poor anti-toxine or the results would not have been so unfortunate. A report comes from Michigan where a doctor had twenty-five cases under his care, the disease being of a peculiarly malignant type. Being unable to procure anti-toxine at once, he was obliged to treat the first eight cases without it. Four of these patients died. He afterwards received a supply of the remedy and treated the remaining seventeen with it, every one being cured.

This is probably an unusual case. The advocates of the anti-toxine treatment do not claim that it is infallible. But wherever it has been tried its success has been sufficiently marked to leave no doubt of its efficacy. Its discovery has already proved to be an incalculable boon.

Last night the Gazette spoke of the big potato crop down east. Wisconsin is doing a little in the potato line herself. There are 500,000 bushels to be marketed around Grantsburg this fall. The price now paid is ten cents a bushel for choice shipping stock and only a limited quantity will be taken at these figures. The starch factory over there grinds 2,000 bushels a day, and this institution purchases the major portion that are sold. It looks as if a large percentage of the potato crop would be wasted this season.

The free trade policy of the democratic party was to open the markets of the world to the produce of the farmers and boom prices. The farmer is still looking for that big foreign market and boom, while we continue to ship gold to Europe to pay the balance of trade against us.

Europe is waking up to the value of Indian corn. For some time the shipments from this country have amounted to 1,200,000 bushels a week or nearly ten times as much as was exported last year.

Very encouraging is the favor with which lectures of a solid, helpful sort are received by Janesville people. Three courses are arranged already and ample support assured for each.

There seems to be a hitch in that '95 tobacco crop. Perhaps the people who decided it was a sin to raise tobacco this year—were not so far wrong after all.

The prosperity of a town doesn't depend on the wealth of its people but on the way they pull together when anything is to be accomplished.

Janesville won't worry a bit over a few St. Paul—Chicago "blue line" that is twenty miles longer than the Evansville cut-off route.

LOCAL LEAF TRADE IS A BIT BRISKER

EASTERN MEN ARE LOOKING FOR '92 TOBACCO.

Reports are Heard Concerning the Damage of '95 Leaf in Curing—Editor Willey says he does not Think It will Prove Serious—Market Gossip.

Flattering reports as to the condition of the 1895 tobacco are being contradicted in a measure by later tidings. Tobacco that was big enough to cut before the late rains is curing very well, but most of the fields were left out until after the rains. Moisture and warm weather brought on a rapid growth of fine looking leaf, but there was not time enough to let it ripen. Frost threatened, so the leaf was cut while full of sap and hurried into the shed. Many crops refuse to cure at all, but merely dry down green "my shed full is curing just that way," said a prominent grower today, "and a lot of my neighbors are in the same fix. Wherever they got leaf in before the rain it is all right, but leaf cut after the rain is only half ripe and never can be cured."

"I don't have any idea the damage from green leaf will be serious," said J. F. Willey of the Tobacco Leaf. "Most of the leaf I have seen has been of very fair color."

Market Picking Up.

In this week's issue of the Leaf a slight improvement in the local market is reported. The advent of several eastern dealers during the week added some life to local market conditions. These gentlemen are looking principally for '92 but are keeping one eye open on the '95 and any bargain that may be lying around to be readily picked up. For some weeks past a still hunt of '92 has been going on and there is but little of that much sought article in the hands of the farmers or our local packers, and prices are stiffening each week. There are not probably a thousand cases of '92 held in the market.

Some attention has been paid to fillers this week and one good lot sold.

Look Toward the New Crop.

Now that the '92 crop is pretty well cleaned up packers are looking toward the '93 and '94 crops.

Among the transactions reported are 53 cases '93 sold and 34 cases '92 and '94 bought by S. B. Hedder; 200 cases '94 fillers sold by Soverhill & Porter to H. Child of Elgerton; 100 cases '94 bought of the farmers by Joseph Grady; Samuel Grundy bought about 50 cases '94; A. N. Jones bought 75 cases '94; 34 cases '92 sold by G. H. Runnill, E. C. Hopkins of Elgerton has purchased a few crops of '93 and '94 of the farmers east of town this week.

MILWAUKEE PAPERS IN GAY GARB.

Souvenir Editions Show That They are Abreast With the Times.

The Milwaukee newspapers are thoroughly abreast with the times if the editions they got out in honor of the semi-centennial are any criterion.

The Sentinel souvenir was the largest and consisted of about fifty pages the matter being finely illustrated and charmingly written. A handsome picture of the new city hall printed in colors is one of the features and nothing was lacking to make the edition one that could be filed away as a complete story of "Milwaukee up to date."

The Journal's edition was not so large, but it was equally attractive. Every page abounded with portraits and other illustrations, while the text reflected the "snap" that has always made that paper popular. "The Journal of over fifty years ago" was one of the features of the issue and was of exceptional interest.

The Daily News had a creditable edition, the chief feature of which was a colored title page showing "Milwaukee past and present." The News is a growing paper and the enterprise so plainly shown in the "celebration souvenir" is what makes it popular.

New fire alarm cards have been distributed about the city and for the benefit of people who were overlooked a few have been left at the fire stations. Early applications should be made.

BART KEHOE was in Janesville today arranging for his "opening" at the Johnson house, Johnstown Center, next week Friday. He takes hold of the house with everything favorable, the house having been in good hands and not being allowed to run down.

COROVANS, enamels, patent leathers, cork soles. No hold back. Any shoe in the house. Your choice for one day, Saturday, for three dollars, no more. You can easily tell when you are getting the best end of a deal. We are going to give you the best end Saturday. Brown Bros. & Lincoln.

FOR the accommodation of those who are unable to get to the office during office hours I will, for the next two weeks, be at the office from 7 to 8 o'clock p. m. on Monday and Wednesday of each week.

CAN'T FIND HEIRS TO \$700.

Rose Riley's Relatives Dip Not Appear to Claim Her Money.

An unavailing search has been made here for relatives of Rose Riley, who died in Dakota a month or two ago leaving \$700. Her family lived near this city and it is believed that some members of it are in the county yet. Inquiry is being made in Lima.

Broken Lot of Shirts.

Rosenfeld has seven dozen undershirts no drawers, the finest goods in the house. Gentleman's all wool underwear in different colors that usually sold for \$2.00, reduced to 75 cents. They are shirts only, remember the drawers were sold, and of course the suit was broken up. We never allow any goods to be carried over on our shelves and for that reason we will sell these \$2.00 shirts for 75 cents. Make no mistake in the store, it's Rosenfeld's on the bridge.

WORKING TO PAY UP ALL Y. M. C. A. BILLS

COMMITTEE TRYING TO RAISE THE MISSING \$1,200.

Cards that can be Filled Out with Whatever the Doners think They can Pay, are Being Distributed about Town, and Every Little Helps to Open the Doors.

Janesville's handsome new Y. M. C. A. building will soon be opened to the public—if the public want it opened.

Some who had subscribed did not pay up as they agreed to, and in consequence the \$5,000 subscription which was made on the condition that the building be free from debt before it was called for, could not be paid. But about \$1,200 was needed to pay all the bills, but like the Celt's flea, it was hard to lay hands on. Then a new scheme was brought into play, and a certain gentleman who always comes to "the scratch" when some hustling has to be done, and who modestly requested that the names of himself and his able lieutenants should not be mentioned, started out. He had a pocket full of cards with a blank space for an amount and a signature.

"Do you want the Y. M. C. A. building opened?" he would say.

"Yes."

"How much? Fill out this card and sign your name to it" was the answer as the bit of paper changed hands.

The three men had very good luck up to three o'clock and it is hoped that in this manner the \$1,200 can be raised and the building thrown open. Every little helps and the contributions of all will be welcome.

HOW TO GET STRENGTH.

Blood Gives Strength.

Kidneys Filter and Blood and Take out Poisonous Matter Which Weakens the System—Blood and Kidney Trouble Related. How They May Be Got Rid Off.

Blood is the strength of the body. It makes flesh and muscle. It gets nourishment from the stomach and bowels, and distributes it where needed.

It drains away all the worn out matter.

Every movement we make, wears out some of our tissue or flesh. This worn out matter is carried away by the blood.

The blood which contains it is poisonous, because the dead tissue is poisonous.

So it goes to the kidneys to be purified.

The kidneys are simply blood filters. They filter out the bad matter from the blood and expel it from the body. They leave the good matter in.

The purified blood goes on and builds up the body.

But there comes a time when the kidneys don't do their duty.

Water filter need cleaning now and then. So do blood filters.

When your kidneys are overworked they fall sick. When they are sick they can't filter the blood.

When your blood is not pure, there is no knowing what diseases you may suffer from.

Unfiltered blood makes pimples, blotches, causes headache, dizziness, neuralgia, loss of ambition, tiredness in the bones and muscles, pains in the joints and muscles, pale sickly complexion, depression of spirits and such well known diseases as rheumatism, gout, anæmia, chlorosis or Greek sickness, hysteria, etc.

To cure them all you have to do is to filter your blood.

The kidneys will do it if you will cure them.

You can cure them with Dr. Hobb's Sparagus Kidney Pills.

Dr. Hobb's Sparagus Kidney Pills will also cure such kidney troubles as Bright's disease, diabetes, nephritis, etc.

These kidney troubles are also cured by impure blood.

First the kidneys refuse to work, then the impure blood poisons the system, and with it the kidneys themselves.

Many people make the mistake of supposing the stomach can purify the blood.

It can't.

Only the kidneys can do it.

That is what they are there for.

So that ordinary "blood purifiers" are a mistake.

A kidney medicine is what should be taken.

And then, only a kidney medicine that has the proper action on the kidneys, such as Dr. Hobb's Sparagus Kidney Pills.

Asparagus is the only plant which has just the right medicinal action on the kidneys, to cure them when overworked and tone them up, so that they commence again to purify the blood.

Asparagus cures the sick kidneys and acts naturally as a gentle tonic and regulator.

It is the principal ingredient, made by a special process, in Dr. Hobb's Sparagus Kidney Pills.

Dr. Hobb's Sparagus Kidney Pills will cure where other prescriptions and medicines will not even relieve.

They are for sale at all druggists for 50 cents per box, or will be sent prepaid to any address on receipt of price.

Valuable pamphlet, "A Filter for your Blood" mailed free on request, Hobb's Medicine Co., Chicago or San Francisco.

It is a truth in medicine that the smallest dose that performs a cure is the best. Dr. Witt's Little Early Risers are the smallest pills, will perform a cure, and are the best. C. D. Stevens.

The Verdict.

A coroner in Nevada recently rendered out a verdict more sensible than one-half the verdicts usually rendered. It appears that an Irishman, conceiving that a little powder thrown upon some green wood would facilitate its burning, directed a small stream from a keg upon the burning piece, but not possessing a hand sufficiently quick to cut this off, was blown into a million pieces. The following was the verdict delivered with great gravity by the official: "Can't be called suicide, because he didn't mean to kill himself; it wasn't visitation of God, because he wasn't struck by lightning; he didn't die for want of breath, for he didn't have anything to breathe with; it's plain he didn't know what he was about, so I shall bring in—died for want of common sense."—Harper's Bazar.

Knows Now.

A boy's fishing pole was fastened to the root of a tree on the river bank, and he was sitting in the sun playing with his dog, idling the time away, as he had been fishing all day and had caught nothing.

"Fishing?" inquired a man passing.

"Yes," answered the boy.

"Nice dog you have there; what is his name?"

"Fish."

"Fish? That's a queer name for a dog. What do you call him that for?"

"Cause he won't bite."

Then the man proceeded on his way.

—Erie Messenger.

A Generalization.

"I'm very lonely," said the vivacious girl. "My brother is collecting postage stamps, and my sister is so busy collecting magazine posters that I see scarcely anything of her. What have you been doing?"

"I?" said Cholly, somewhat sternly. "I have been collecting my thoughts."

"Dear me! What silly fads people do have nowadays!"—Washington Star.

Not Much Difference.

Trivet—There is very little difference between a court's order to a sheriff to hang a man, and a reprieve for the criminal.

Dicer—What is the difference?

Trivet—The death warrant says: "Thou shalt knot," and the reprieve says: "Thou shalt not."—Bay City Chat.

A Suggestion.

Parker—What do you think of that proposed amendment to the state constitution?

Barker—Which one?

Parker—It provides that every law enacted hereafter must state distinctly whether it is intended to be enforced or not.—Pack.

Always the Case.

"If I were only pretty," she sighed.

"You can easily become so," said her best friend.

"How?"

"Disappear mysteriously. I never read of a girl who disappeared mysteriously who was not pretty."—Chicago.

FREEDOM FROM FRECKLES,

and from all such disfigurements and blemishes, follows the use of the Carlsbad Sprudel Salt. It clears and freshens the skin wonderfully—takes away that dull and mottled look that comes from stomach derangements. Besides being a purgative and an eliminative, the Sprudel is a decided alternative or blood-purifier. It is the prescribed remedy, even in chronic and stubborn cases of eczema and such disorders.

The blood, the liver, the stomach, the kidneys—all are put into a thoroughly healthy condition by the Sprudel Spring, and just as well here as if you were on the spot.

Remember that the only genuine imported Sprudel Water or Salt has the seal of the city of Carlsbad, and the signature of "EISNER & MENDELSON CO., AGTS., New York," on every bottle.

The Idea

seems to be prevalent, that a better Overcoat can be bought ready made, than a Tailor can make at the same money.

An Incident.

A gentleman called at the store the other night—to wait for a car—He remarked that he had bought a \$25 ready-made Overcoat; said he thought he could get better goods for the same money than a tailor could give him. I made no reply but simply laid out on the table a piece of Black Beaver, some all silk lining, Satin sleeve lining, Velvet pocketing, and Soutache buttons and said I would make those to fit you at \$25. His car came in sight and with a disgusted look on his face he said: I'm Stuck.

Go ahead—buy shoddy Beaver Overcoats—last year's styles with Cotton Velvet Collars, Cotton back Silk lining cut out by the foot with a knife like meat; made to fit any body—and in reality fits nobody—sewed together in two and one-half hours at a cost of \$1.62 for labor—made out of goods made expressly for ready-made trade, because, in the piece you would not buy it at all. The manufacturer makes 20 per cent, the retailer 50 per cent and the purchaser gets left.

That's Right.

work by 100 per cent, better looks, better fits by 100 per cent and with all that a feeling of satisfaction and pride that your garment was made for you—not for anybody.

I can convince you that I can give you better goods better trimmings, better work by 100 per cent, better looks, better fits by 100 per cent and with all that a feeling of satisfaction and pride that your garment was made for you—not for anybody.

In two minutes

I know

There is one Tailor in town who can see further in advance than the end of his nose; and he is going to build up a tailoring trade worthy of this model town and we have thirty-five thousand dollars and an unlimited credit to stay by us until it is accomplished.

that Janesville tailors, with their slow ways, short-sightedness and high prices have turned the people from their own doors into the ready-made store.
